Railroad Commission of Texas
Post Officer Drawer 12967
Austin, Texas 78711

Dear Ms. Weaver,

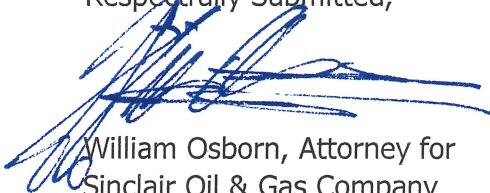

Sinclair Oil & Gas Company and Four Sevens Operating Company (hereafter "Sinclair") request a hearing to consider their application for approval of the formation of five pooled units pursuant to the Texas Mineral Interest Pooling Act. These proposed units are named Moss, Washington, Steers Nation, Goliad and Bauer, and completion is proposed in the Spraberry (Trend Area) R 40 EXC Field, Howard County, Texas. These units would be located entirely within the city limits of Big Spring, Texas.

Enclosed for the Commission's file are copies of the offer letters for each unit, and a map showing the proposed outline of all five units. The Commission will assign a separate docket number for each proposed unit, but Sinclair requests consideration of all dockets in a single hearing. We understand that the date of May 18, 2018 is open on the Commission's calendar, and that setting is requested. A completed hearing request form is attached.

We will shortly submit a draft notice of hearing for your consideration, asking first that you advise what docket numbers are assigned, so that we may place them in the notice. The notice form proposed will more fully set forth the proposed size of each unit, and other details about the applications, using the Commission's standard NOH template.

Additional information about these applications is available on a project website, at www.bigspringwells.com

Respectfully Submitted,

William Osborn, Attorney for
Sinclair Oil & Gas Company
Four Sevens Oil & Gas Company
